

LW-HP

Large portable seawater desalination equipment

This product has the largest processing capacity in the LW series. The maximum processing capacity is 200m³/day of treated water.

This device is large and heavy, but by dividing the device into three parts, it is lightweight and compact, making it easy to transport and install.

For details, please contact our technical department.

*This product is different from a water purifier that operates all the time.

*Please be careful when moving.

	LW-50HP	LW-100HP	LW-200HP
Fresh water production	50 m ³ /day	100 m ³ /day	200 m ³ /day
Water intake	140 m ³ /day	280 m ³ /day	560 m ³ /day
Wastewater volume	90 m ³ /day	180 m ³ /day	360 m ³ /day
power consumption	30kw		Please contact us
Size	W7000×D2000×H2400		Please contact us
Weight	3500kg (dry)		Please contact us
Other		Seawater tank is optional Can be installed outdoors, three-part unit configuration Can be transported by a low flat floor long 4-ton truck
